Allowable Subject Matter

1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The closest prior art, Komatsu et al. (US 6,096,378), discloses a substrate having several layers including an intermediate coating, base-coating, pearl-like base coating, and clear coating (abstract). Coatings include aluminum flakes, titanium white pigment, acrylic resins, and urethane resins (examples). However, the coatings do not represent the claimed structure having a guard film and intermediate clear coating layer or have the claimed IV value property. For these reasons, it is the examiner's position that the claimed laminate films provide novel and unobvious steps over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
